Ultramarine 10.0

WE DESIGNED AN EMOTION

Some say style has to be staid. Even speed can be an expression of elegance. A rare unique and sophisticated elegance, such as ultramarine blue that Renaissance painters were able to extract from Lapis Lazuli and used to decorate the angels garments: the precious Ultramarine.

DESIGNED TO SPEED UP BEATS

Do not be fooled by the soft caress of the cushions, by care of color combinations, by the retro design of the dashboard: Ultramarine is a thoroughbred with pure sporting DNA.

FULL OPTIONAL PASSION

Available in Stern Drive or Outboard version, petrol or diesel, has standard electronic control of all utilities from a single console, the marine toilet and the electric winch and an endless number of customizations to make it even more unique and inimitable. Angular lines and curves are mind-boggling and just a foretaste of the driving experience. Fast and maneuverable, always in control. Hydrodynamically sophisticated, cutting-edge technology, flawless materials and flagship degree of the finishes, Ultramarine is pure beauty in motion.

Ultramarine 10.0
